

RYAN A. PINDE

Information Technologist | Web & Windows APP Developer | Graphic Designer

I am an Information Technologist and Graphic Designer with expertise in IT system management, database handling, software development, and creative design. Currently working in the Billing Department at Al-Lulu Medical Complex, I manage insurance claims, system updates, and technical support, while also developing websites, internal billing software, and digital materials. My past experience includes creating medical campaigns at Alicia District Hospital and teaching IT at Western Mindanao State University. Passionate about branding and digital media, I aim to deliver modern, user-centered solutions that merge functionality with creativity.
